Subject: RE: Regarding systematic review

I'm in DC a fair amount in November, in particular the week of November 13th looks good. I'm also in DC during the first 2 weeks in December. I'd be happy to stop by ACC. Alternatively, we can do remote if those weeks don't work or if you think there won't be enough interested people onsite at ACC to make the visit worthwhile. -k

Subject: RE: Regarding systematic review

Rick,
Kris might be on a flight heading back from London, but we have done these in person and by webinar, and in general they work well both ways. She could also come to ACC to be 'present' with whomever happens to be there and webinar out to members? I think this should be doable. I thought there might be benefit to coordinating among LRI and CPTD – but if it becomes too complicated, we can do more than one.

Tina

Subject: RE: Regarding systematic review

Hi Tina – thanks for the suggestion. Our next LRI SST meeting will be a conference call in December. So we probably don't want to wait that long to schedule such an update. Were you thinking a webinar or in person presentation at ACC (that we can also do as a webinar for members)? Kimberly and I can confer after I get back to ACC after the ISES meeting and come up with a couple of potential dates/times to suggest to you and Kris.

Thanks

Rick

Subject: Regarding systematic review

Good morning Rick and Kimberly,

Following on recent discussions at the NAS BEST and the formaldehyde meeting last week, there seems to be some interest in tools and methods IRIS is developing and using for pragmatic implementation of systematic review in our assessment practices. If you are planning meetings with your members in LRI and/or CPTD, and think there might be interest, it might be good for Kris to provide an update on these efforts? What do you think?

Thanks,

Tina
